

Don't drive to the credit union. Make your deposit with your smart phone.

Mobile Deposits is a FREE service for our members.

What is Remote Deposit Capture?

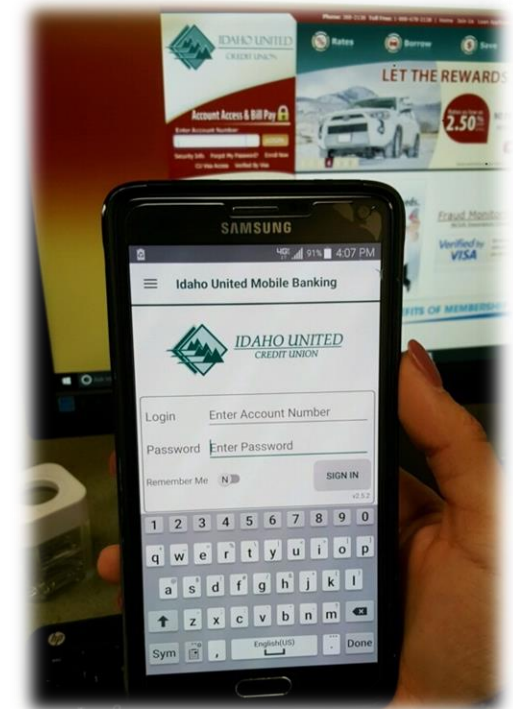

A system that allows a member to scan checks remotely and transmit the checks to the credit union for deposit via an encrypted internet connection. When the credit union receives a check image it posts the deposit to the members account and makes the funds available in the account.

Note: Deposits made before 3:00 pm Mon-Fri (excluding federal holidays) are credited the same day. Other deposits are credited the next business day.

QUICK, EASY AND FREE!

From anywhere!

Mobile Deposit is Easy:

Log into mobile banking through your Idaho United Credit Union mobile app.

Choose "Deposits" from the menu.

Review and accept the deposit terms and conditions and follow the instructions for how to endorse your check.

Enter the dollar amount and choose an account for the deposit.

Take a photo of the front and the back of the check. We will do the rest!

You will receive an email indicating we have received your deposit.

You will receive a second email indicating the deposit has been approved.

Then check in deposit history for the completed deposit.

Mobile Banking App

Our mobile app is available for iPhone, iPad and Android devices. Search for Idaho United Credit Union from the Apple App Store or Google Play.

Convenient
Easy
